

Hi Arnav,

Thanks for organizing the meeting this morning! And thanks to everyone who took time out of their day to join. Here is the recording:

AAIC is our international brain science conference, you may find good resources in the abstracts from prior years. Also, every year on the last day they do a free mini conference open to the public via Zoom, you're welcome to attend. Registration will probably open around March.  
[aaic.alz.org](http://aaic.alz.org)

Here is the old website for our tech accelerator pitch competition; there may be more info there:

<https://matter.health/challenges/second-annual-alzheimers-association-pitch-competition/>

Here's some info on our app: <https://www.alz.org/help-support/resources/my-alz-journey>

Also, something to be aware of when you are searching for info on tech solutions for families facing dementia, APP is a common acronym in Alzheimer's science! It stands for Amyloid Precursor Protein.

Let me know if I can be of any further support, good luck with the rest of the Hackathon!

Vanessa
